

VINEET VERMA

SENIOR FULL STACK DEVELOPER

Ujjain, Madhya Pradesh, India | +91 7999566202 | vvineet187@gmail.com | linkedin.com/in/vineet-verma-9b7b19145 | github.com/vineetverma91

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 6.8 years of experience designing and delivering scalable web applications and REST APIs using React.js, Node.js, TypeScript, and the MERN stack. Proven track record leading full-stack teams to build enterprise platforms — including a Data Science Studio and an Intelligent Document Processing system — with hands-on expertise in secure authentication (JWT, Azure AD, LDAP), CI/CD pipelines, and code-quality tooling (SonarQube, Checkmarx). Strong record of translating business requirements into robust, production-grade software.

TECHNICAL SKILLS

Frontend: React.js, Redux, TypeScript, JavaScript (ES6+), Material UI, Bootstrap, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, Microservices, JWT Authentication

Databases: MongoDB, SQL, PostgreSQL, Sequelize ORM, Elasticsearch

DevOps & Tools: Docker, Jenkins, Azure DevOps, CI/CD, Git, Vercel, Hostinger

Quality & Security: SonarQube, Checkmarx, Jest, Unit Testing

Methodologies: Agile, Jira

AI-Assisted Development: Claude, ChatGPT, Cursor, Gemini

PROFESSIONAL EXPERIENCE

Lead Design Engineer — Newgen Software, Gurgaon

Feb 2022 – Oct 2024

- Led end-to-end development and launch of the Data Science Studio (NAI Platform), a cloud and on-premise data science platform, as lead engineer for a 4-member team.
- Built full-stack modules using React.js, TypeScript, Node.js, MongoDB, and Elasticsearch; designed pipeline validation architecture and real-time monitoring systems.
- Integrated Azure AD and LDAP for secure authentication and role-based permission management across the platform.
- Implemented CI/CD pipelines using Jenkins and Azure DevOps, streamlining release cycles.
- Diagnosed and resolved production scanning failures flagged by Checkmarx through targeted performance optimization, improving application speed by 15%.
- Developed SQL-driven backend validation logic, reducing false validations by 30% and improving data processing scalability by 50%.

Full Stack Developer — Number Theory, Gurgaon

Sep 2020 – Feb 2022

- Developed and maintained frontend and backend components for web applications using React.js, Node.js, and MongoDB.
- Built REST APIs enabling efficient client-server data communication.
- Authored Jest test suites for frontend and backend, integrating with SonarQube for coverage analysis.
- Participated in Agile delivery cycles, contributing to sprint planning and performance improvements.

Developer — Ajira Software, Pune

Apr 2018 – Feb 2020

- Built and optimized REST APIs using Node.js, Express, and SQL for scalable dashboard applications.
- Designed UI components for enterprise dashboards using React.js and Material UI.
- Supported debugging and performance-tuning efforts across the application stack.

Junior Software Engineer — Ayanworks, Pune

Oct 2017 – Mar 2018

- Contributed to development and maintenance of scalable web applications and dashboard UI components using Bootstrap.

KEY PROJECTS

Data Science Studio (NAI Platform) | *Newgen Software*

- Led development of a cloud/on-premise platform integrating Azure AD/LDAP authentication, job monitoring, and validation pipelines; built with React.js, TypeScript, Node.js, Express, and JWT-secured middleware. Impact: Reduced processing delays by 25%, and increased system reliability by 30%.

Warehouse Management System | *Newgen Software*

- Designed and built a WMS automating inventory tracking, order processing, and stock management with role-based access control, real-time low-stock alerts, and reporting dashboards, using React.js, Material UI, Node.js, and Express.

Intelligent Document Processing (IDP) Studio | *Newgen Software*

- Built an ML/Neural-Network-powered document processing platform with log monitoring, error tracking, and a JWT-secured backend architecture using React.js, Node.js, and Express.

EDUCATION

Master of Business Administration (MBA) in Systems | Vikram University, Ujjain | 2016

Bachelor of Engineering (BE) in Computer Science | Rajiv Gandhi Proudhyogiki Vishwavidyalaya, Ujjain | 2013

CERTIFICATIONS

MERN – The Complete Guide (Basic to Advanced), Udemy
